Price:

£75.00

A Superior quality 4ch DVR built by Professionals for users that require a High Standard of Operation, Recording and Archiving. Pentaplex operation allows Continuous Recording whilst in Playback Mode, or when accessing the DVR on a Network or Remotely through the Internet using the inbuilt High Spec Webserver. The Webserver allows up to 4 users and 1 administrator to access the DVR for Live Viewing or Playback. There is also multi site software available for Users with up to 4 DVR's or for Central Station use. High Spec Compression, fast Recording Speeds and a choice of fast setup using "EZRecord" or full control of individual camera settings for Resolution and Frame Rate during Day, Night and Weekend - make this a truly multi functional Pro Grade model. Users may choose both Video and VGA Computer Monitors for viewing and there is also a Call Monitor output and a S-Video output. [Learn More](#)
